

LOGMEIN EMERGENCY REMOTE WORK KIT

Trusted tools to power educators through the unexpected.

We're Here to Help

In education, your responsibility to protect students and faculty takes top priority. That's why the LogMeIn team is committed to helping you reduce unnecessary risk while minimizing disruption by supporting remote work whenever and wherever possible.

Free Service for 3 Months

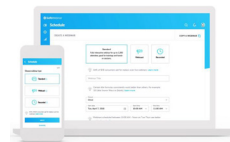

In response to the recent health crisis, the following groups will have free, organization-wide use of the LogMeIn Emergency Remote Work Kit:

- Educational institutions
- Non-profit organizations
- Current LogMeIn customers

What's Included - GoToMeeting rescueassist

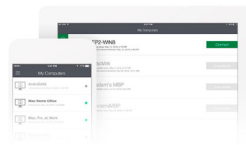

Meet - Use GoToMeeting to reduce student and faculty exposure by enabling face-to-face remote collaboration, via desktop, web, or mobile.

Support - Keep the systems students and faculty depend on running without needing IT to be physically present. Resolve technical issues by delivering web-based support to customers, end users, unattended computers and servers.

Access - Minimize non-essential staff onsite, while still supporting your institution. Allow staff to remotely access their work desktops from offsite endpoints.

Host - Minimize class disruption while retaining student engagement with webinars up to 3,000 attendees.
