Start your no-cost, no-obligation trial so you can begin protecting your business today!

ANALYZE

Obtain comprehensive identification of any specific, active threats currently lurking in your environment.

INVESTIGATE

See evidence of prior breaches and attackers who may have already created compromises.

RESPOND

Get a personalized action plan to secure your endpoints for every threat.

VIGILANT MEP

managed endpoint protection

FULLY MANAGED APPLICATION SUITE
THAT DEFENDS YOU FROM ALL DIRECTIONS

COMPREHENSIVE AND FAST

Vigilant Managed Endpoint Protection (MEP) offers a holistic approach to endpoint security for organizations across all industries. You'll no longer need multiple vendors or endpoint products to protect your systems. With Vigilant MEP, securing endpoints takes minutes.

SCALABLE AND FLEXIBLE

With full support for on and off-premise endpoints, Vigilant's MEP is highly scalable and ready to grow with you. Our service is virtualization friendly, cloud ready, and capable of running on all supported Windows, Mac and Linux based operating systems.

FULLY MANAGED SOLUTION

Powered by Vigilant Hunt Team engineers and information security analysts, Vigilant MEP is a fully managed service. Our entire team becomes an extension of your team, so you can keep your team's efforts focused entirely on other strategic priorities.

PERSONALIZED PROTECTION
